ASTM Compass®

ASTM Compass® is a vast collection of industry-leading standards and technical engineering information, including aerospace, chemical, civil, environmental, geological, health and safety, mechanical, nuclear, petroleum, soil science and solar engineering disciplines. Globally, over 1,500 academic and research institutions use ASTM Compass, including 90% of the world’s top 100 universities.

www.astm.org/compass

**Standards**
- **12,500+** active ASTM standards
- Approximately 45% are test methods which are supported by scientific and statistical studies.
- Available in both PDF and HTML
- **42,600+** historical standards and
- **2,400** withdrawn standards
- **9,700+** redlines – shows the comparison between versions of standards

**Journals**
- **123,200+** pages – all articles peer reviewed
- Advances in Civil Engineering Materials (ACEM)
- Materials Performance and Characterization (MPC)
- Geotechnical Testing Journal (GTJ)
- Journal of Testing and Evaluation (JTE)
- Journal of ASTM International (JAI)
- Journal of Cement, Concrete and Aggregates (CCA)
- Journal of Composites Technology and Research (JCTR)
- Journal of Forensic Sciences (JOFs)
- Included in Thomson Reuters Web of Science and others

**eBooks - Selected Technical Papers**
- The latest engineering research from ASTM Symposia
- **29,000 papers** - all peer reviewed
- Published in book format
- **1,550+ books, 400,000 pages** (1931 – today)

**eBooks - Manuals, Monographs and Data Series**
- Practical, hands-on application information (manuals) or advanced and highly technical information (monographs) from highly-regarded experts
- **120+ volumes 28,000 pages** (1965 – today)

**COMPASS TOOLS**
- Color-coded highlighting identifies changes to standards
- Create and share annotations
- Develop communication groups
- Utilize bookmarks and alerts
- Search in 10+ languages
- Receive update alerts
- Connect with experts
- Daily updates
- Unlimited simultaneous users

Students with a knowledge and understanding of standards have a real advantage over those who do not. Standards are the foundation of most of the industry sectors they will be joining when they begin their careers.
